

Mandarin Tree Academy

Mandarin Class for Kids

MISSION

To educate a whole-child who is cognitively, linguistically and socially prepared to lead and make a difference in the global society. To make high-quality language, culture and STEAM learning experiences available to every child.

OUR EXPERTISE

Developed by highly-qualified teachers with 10+ years Mandarin teaching experience with teaching credential in Mandarin. Taught by qualified teachers and assistants who care about children and share our teaching and educational philosophy.

TESTIMONIAL

My son (age 5) enjoys going to Chinese class each week. He has only minimal exposure to Mandarin at home and has proactively started teaching his father (non-Chinese speaker) how to speak and write words in Chinese. The teacher keeps the children engaged through songs and crafts, and makes the classroom a fun place to learn!

Afterschool Mandarin Immersion
